ERRATUM

SEPTEMBER/OCTOBER 2025

Physical Compatibility of Ertapenem and Meropenem in 0.45% Normal Saline and Plasma-Lyte A, Page 430-434

- Within the “Results” section of the Abstract:
Meropenem 20 mg/mL was found to be physically incompatible beyond **1 hour** when mixed in 0.45% sodium chloride.
- Within the “Results” section of the manuscript:
Meropenem 20 mg/mL mixed in 0.45% NaCl was similarly found to have a demonstrable change in pH at **5 hours**, leading to the conclusion that physical compatibility cannot be extrapolated beyond **5 hours**.
